

AMARTYA ROY

Bengaluru, India | +91-8369378216 | amartyaroy123.del@gmail.com | LinkedIn | GitHub | Tableau Public

PROFESSIONAL SUMMARY

Computer Science graduate with internship experience in product implementation, business analysis, automation, and customer-facing technology. Hands-on experience with SQL, MySQL, Power BI, Tableau, Excel, Python, and data visualization through practical analytics projects. Experienced in translating business requirements into workflows, analyzing data, and communicating solutions across product and engineering teams.

EXPERIENCE

BiteSpeed — Implementation Engineer / Business Analyst Intern *Bengaluru, India | July 2025 – October 2025*

- Configured automation flows and customer journeys for 20+ e-commerce brands, including Mokobara, Bombay Shaving Company, Dot&Key and mCaffeine.
- Built marketing and logistics workflows covering abandoned carts, customer retargeting, COD-to-prepaid conversion, shipping updates and delivery notifications.
- Worked with WhatsApp Business API, Shopify stores and third-party integrations, configuring automation nodes around brand-specific requirements.
- Coordinated with product and engineering teams to communicate requirements, test new features and support custom use cases.
- Worked with customer segmentation, campaigns, data uploads, payment integrations, revenue attribution and support dashboard features.

PROJECTS

Digital Payments Analytics

2026

MySQL | SQL | Power BI | DAX

- Analyzed 5,000 digital wallet transactions and identified patterns in transaction status and payment failures.
- Built an interactive Power BI dashboard to present the findings.

Indian Retail Sales Analysis

2026

Python | Pandas | Excel

- Analyzed retail sales data across cities, products, payment methods and store types.
- Used Pandas and Excel pivot tables to clean, summarize and present the analysis.

Superstore Sales Dashboard

2026

Tableau

- Built an interactive Tableau dashboard to explore sales performance across products, regions and customer segments.
- Used filters and visualizations to present key sales trends.

Internet Speed Tester

September 2026

Python

- Built a simple internet speed testing application using Python and speedtest-cli.
- Displays download speed, upload speed and ping.

EARLIER PROJECTS

PCOS Predictor *Python | Flask | TensorFlow*

- Developed a basic web application using a neural network to predict PCOS based on user responses.

Walking Stick for the Blind *Arduino | Proximity Sensor*

- Built a prototype that detected nearby obstacles and generated an alert.

EDUCATION

SRM Institute of Science and Technology *Tamil Nadu | 2019 – 2023*

- Bachelor of Technology in Computer Science and Engineering | CGPA: 8.31

Delhi Public School, Kanpur *Kanpur, Uttar Pradesh*

- Class XII — 94% | Class X — 10 CGPA

SKILLS

Data & Analytics: SQL, MySQL, Power BI, Tableau, Microsoft Excel, Python, Pandas, DAX, Data Visualization

ADDITIONAL EXPERIENCE

Aashray NGO — PR Executive, Mumbai Chapter *November 2023 – September 2024*

- Organized community events and social drives including beach cleanups and children's activities.

Youth India Foundation — Video Editor, Tech Team *March 2020 – August 2021*

- Worked on video content quality control and editorial corrections.

ACHIEVEMENTS

- Silver Medalist — Flashback 2K19 Quiz, Vibrance '20, National-level cultural and sports festival, VIT Chennai.
